

## ATTACK FOUR MEN

Strikers at Stove Company's Factory in Conflict With Strike Breakers.

## HOLD THE SUPERINTENDENT

Who Acted as Escort for Nonunion Employees—One is Pulled from Car and Beaten.

A conflict between the striking metal polishers and non-union men employed at the Rock Stove company's works, occurred last evening after working hours, about 6 o'clock. C. K. Mixer, superintendent of the factory, left the shop in company with Frank Steele of Moline, one of the non-union men, and two other employees, one named Cox, who resides in Davenport, and another residing in Moline. The union pickets caught and held Mr. Mixer while others set on the three workmen. The Davenport man boarded a car and managed to escape without injury, but Steele was pulled from the car and beaten. The other Moline man was somewhat beaten, but not severely. Steele finally escaped and ran into the Rock Island Plow company factory. He was later taken to a drug store up town, and his bruises treated.

### No Arrests Made.

As yet no arrests have been made, and whether an attempt to prosecute the union men who made the attack will be made is not known. The metal polishers at the factory have been on a strike for over three weeks, their demand being for a material increase in wages. The factory has been picketed from the beginning of the strike, but until last evening no conflict occurred.
